

Failure Is Not An Option.

AR amplifier modules and systems have been on the front lines, in the toughest battle conditions. They're not only tough and dependable, they're lightweight, versatile, and easy to use. And they're ready for anything. Always.

- **Booster amplifiers for tactical military radios from 30 – 512 MHz (VHF and UHF bands) – from 12 to 200 watts**
- **High-Efficiency Modules for Jamming applications / Electronic Warfare / ECM / ECCM / Improvised Explosive Devices**
- **Man-Pack / Vehicle-Mount**
- **Self-Tuning / Multi-Band**
- **Ultra-Compact**
- **Exceed MIL-STD 810F**
- **Compatible with virtually every military transceiver**
- **Backed by the strongest, most comprehensive warranty in the industry and a global support network that's second to none**

When failure is not an option, AR amps are your only choice.
